Name: Date: Score:

1. 6 × 7 = ?

(A) 42 (B) 36
(C) 48 (D) 13

2. 56 ÷ 8 = ?

(A) 6 (B) 9
(C) 8 (D) 7

3. 348 + 275 = ?

(A) 513 (B) 623
(C) 613 (D) 523

4. 502 − 168 = ?

(A) 434 (B) 344
(C) 334 (D) 366

5. Round 467 to the nearest ten.

(A) 460 (B) 470
(C) 500 (D) 400

6. Which fraction is equal to 1/2?

(A) 2/3 (B) 2/5
(C) 1/4 (D) 3/6

7. A rectangle is 8 cm long and 3 cm wide. What is its perimeter?

(A) 22 cm (B) 11 cm
(C) 24 cm (D) 16 cm

8. What is the area of the same rectangle?

(A) 11 cm² (B) 22 cm²
(C) 24 cm² (D) 32 cm²

9. Mia buys 3 notebooks at ₱25 each. She pays with ₱100. How much change does she get?

A ₱75
B ₱25
C ₱35
D ₱15

10. What is the value of the digit 6 in 4,682?

A 6
B 60
C 600
D 6,000

Name: Date: Score:

1. Which gas do plants take in to make their food?

A oxygen
B carbon dioxide
C nitrogen
D helium

2. What is the process plants use to make food from sunlight?

A photosynthesis
B evaporation
C digestion
D condensation

3. Which organ pumps blood around the body?

A lungs
B brain
C heart
D stomach

4. Which material lets electricity flow through it best?

A wood
B rubber
C plastic
D copper

5. When water vapour cools and turns into water droplets, it is called...

A melting
B evaporation
C freezing
D condensation

6. Animals that eat only plants are called...

A carnivores
B herbivores
C omnivores
D predators

teacherdaisyjane.com

📖 English

#	Answer	Why
1	**C** · went	“Yesterday” tells us it already happened, so we use the past tense: went.
2	**B** · tall	An adjective describes a noun. “Tall” describes the boy.
3	**D** · glad	Glad is a synonym (a word with the same meaning) of happy.
4	**A** · Where are you going?	A question starts with a capital letter and ends with a question mark.
5	**C** · sunflower	Sun + flower = sunflower: two words joined together.
6	**B** · does	With she, he or it in the present tense we use “does”.
7	**A** · not	Un- means not: unhappy means not happy.
8	**D** · Their rice fields need water.	The passage says “their rice fields need water”.
9	**C** · The rainy season brings good things and hard things.	The passage tells us about good things (water for rice) and hard things (floods).
10	**B** · cautious	Cautious means careful — paying attention to stay safe.

🔢 Maths

#	Answer	Why
1	**A** · 42	6 × 7 = 42. Tip: 6 × 7 is one more group of 6 than 6 × 6 = 36.
2	**D** · 7	8 × 7 = 56, so 56 ÷ 8 = 7.
3	**B** · 623	Ones 8 + 5 = 13 (carry 1), tens 4 + 7 + 1 = 12 (carry 1), hundreds 3 + 2 + 1 = 6.
4	**C** · 334	Check by adding back: 334 + 168 = 502.
5	**B** · 470	The ones digit is 7 (5 or more), so round up to 470.
6	**D** · 3/6	3 is half of 6, so 3/6 = 1/2.
7	**A** · 22 cm	Perimeter = 8 + 3 + 8 + 3 = 22 cm.
8	**C** · 24 cm²	Area = length × width = 8 × 3 = 24 cm².
9	**B** · ₱25	3 × ₱25 = ₱75, and ₱100 − ₱75 = ₱25.
10	**C** · 600	The 6 is in the hundreds place, so its value is 600.

Science

#	Answer	Why
1	**B** · carbon dioxide	Plants take in carbon dioxide and give out oxygen.
2	**A** · photosynthesis	“Photo” means light: plants use light to make food.
3	**C** · heart	The heart is a muscle that pumps blood all day and night.
4	**D** · copper	Copper is a metal and a good conductor. That is why wires are made of it.
5	**D** · condensation	Condensation is why a cold glass gets wet on the outside.
6	**B** · herbivores	Herbivores, like the carabao and the goat, eat only plants.
7	**C** · sunlight	Sunlight will not run out. Coal, oil and gas take millions of years to form.
8	**A** · Earth spinning on its axis	Earth spins once every 24 hours. The side facing the Sun has day.
9	**A** · iron filings and sand	Iron is magnetic, so a magnet pulls the iron filings out of the sand.
10	**C** · crust	The crust is the thin, rocky outer layer of the Earth.

Score guide: 9–10 excellent · 7–8 good · 5–6 keep practising · 0–4 review this topic with a teacher.
